

## Typical Schematics for Piers E6 through E18

Source: Caltrans 2016 (imagery); compiled by AECOM in 2016

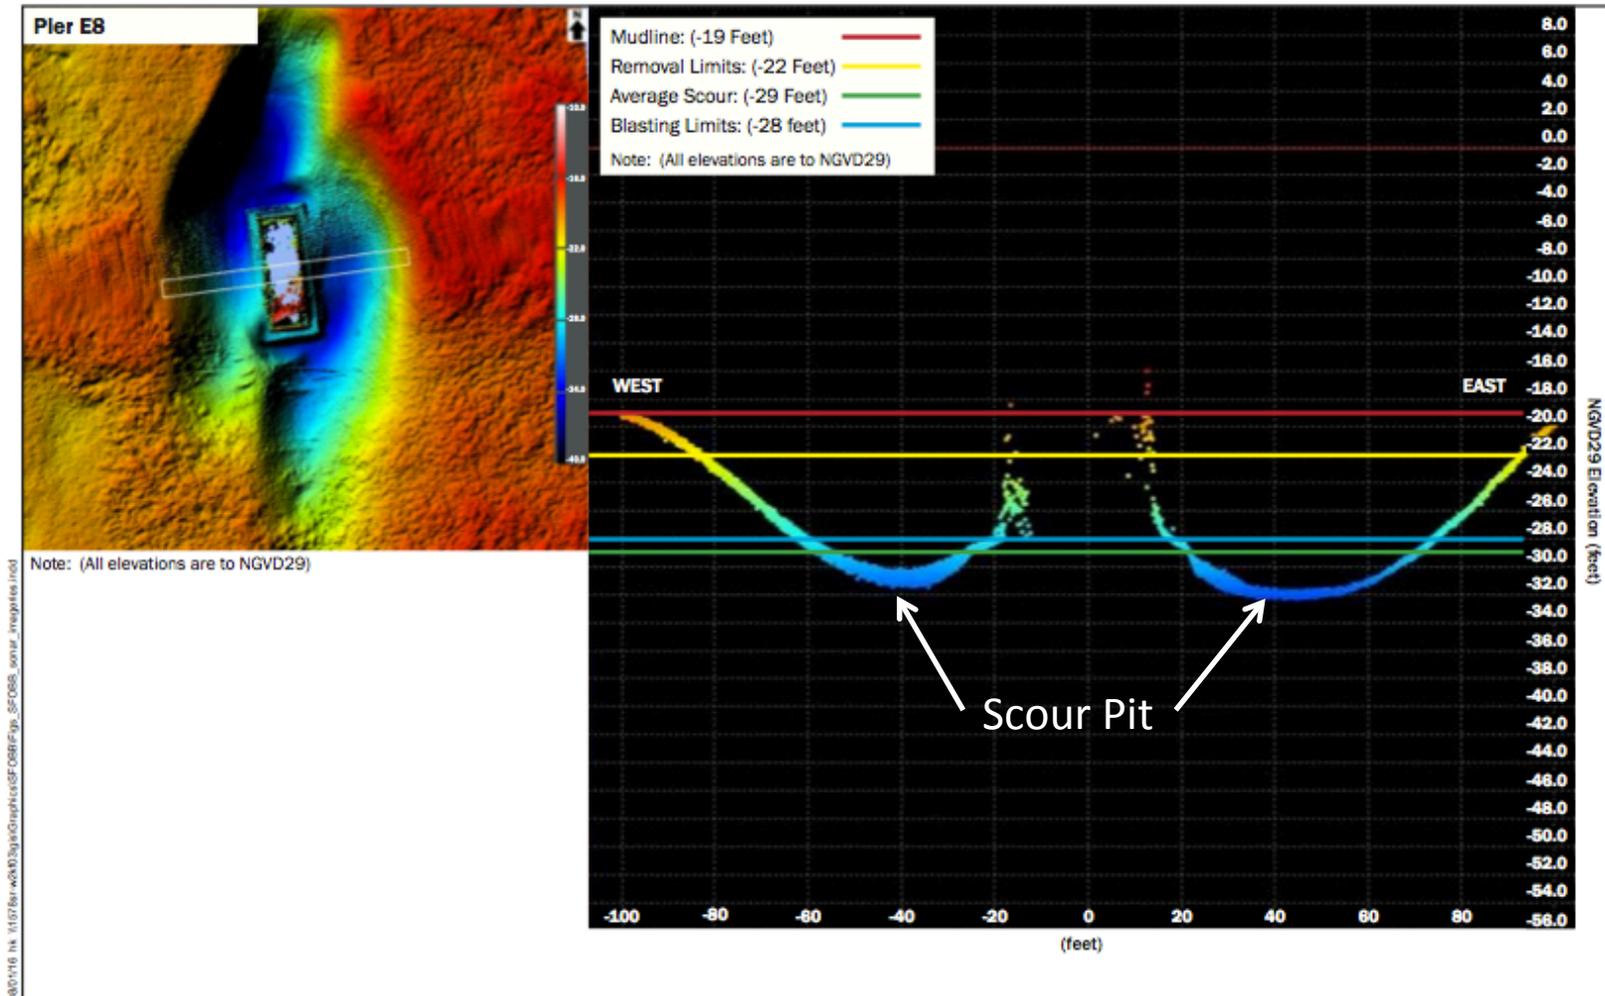

## Example Cross-Section of Pier E8

<sup>1</sup> Mudline is defined by Caltrans as the lowest elevation of the natural mudline adjacent to and outside of the scour pit surrounding each pier.

<sup>2</sup> Removal limit is three feet below "mudline."

# Example Sonar Survey Cross-Section of Pier E8
