Due to COVID-19, please join us Online to see Share Screens to participate effectively in this meeting.

Questions? Please contact Nahal Ghoghaie at nahal.ghoghaie@bcfdc.ca.gov or (360) 464-5114

Description

Rising sea levels will dramatically affect our way of life in the Bay Area. **BAY ADAPT: Regional Strategy for a Rising Bay** is an initiative to establish regional agreement on the actions necessary to protect our people and the natural and built environment from rising sea levels. Through this six-month, collaborative action-setting initiative, Bay Area regional, local and community leadership will identify, deliberate and commit to a set of shared actions that will allow the Bay Area to adapt better and adapt faster to a rising Bay. This first Public Stakeholder Forum will shape the overall process by seeking broad stakeholder participation and input. WELCOME to the first Public Forum!

Objectives

1. Understand diverse perspectives on the opportunities and challenges for coordinated regional sea level rise planning
2. Introduce Bay Adapt and its Guiding Principles for adapting to rising sea level
3. Discuss actions that workshop participants want to be considered as we address Sea Level Rise in the Bay

Materials

- [PowerPoint Presentation](#)
- [Guiding Principles for Adapting to Rising Sea Level](#)
