

**SMALL DREDGER PROGRAMMATIC ALTERNATIVES ANALYSIS (SDPAA)
FOR DISPOSAL OF MAINTENANCE DREDGED MATERIAL
IN THE SAN FRANCISCO BAY REGION
AGREEMENT**

Project Name: _____

Address: _____

Phone Number: _____

Contact Person: _____

I, _____ (permittee/applicant or authorized agent) have read the SDPAA (10/28/04) developed by the LTMS agencies for small dredgers. A small dredger project is characterized by having a project depth of twelve feet Mean Low Lower Water (MLLW) or less, and having an annual dredging/disposal volume of 50,000 cy or less. My project meets this definition, and I believe that the SDPAA appropriately evaluates issues relevant to it.

Please check the boxes that apply to your project:

The following upland disposal or reuse site is available and feasible for this project, and I propose to use it

(NAME OF SITE)

An upland/wetland disposal or reuse site is NOT available and feasible for this project. I propose to use the following multi-user in-Bay disposal site:

- Alcatraz (SF-11)
- San Pablo Bay (SF-10)
- Carquinez Strait (SF-9)

I attest that the above information is true and accurate to my best available information and knowledge.
