## **OPD/Lind Marine Estuary Cleanup**

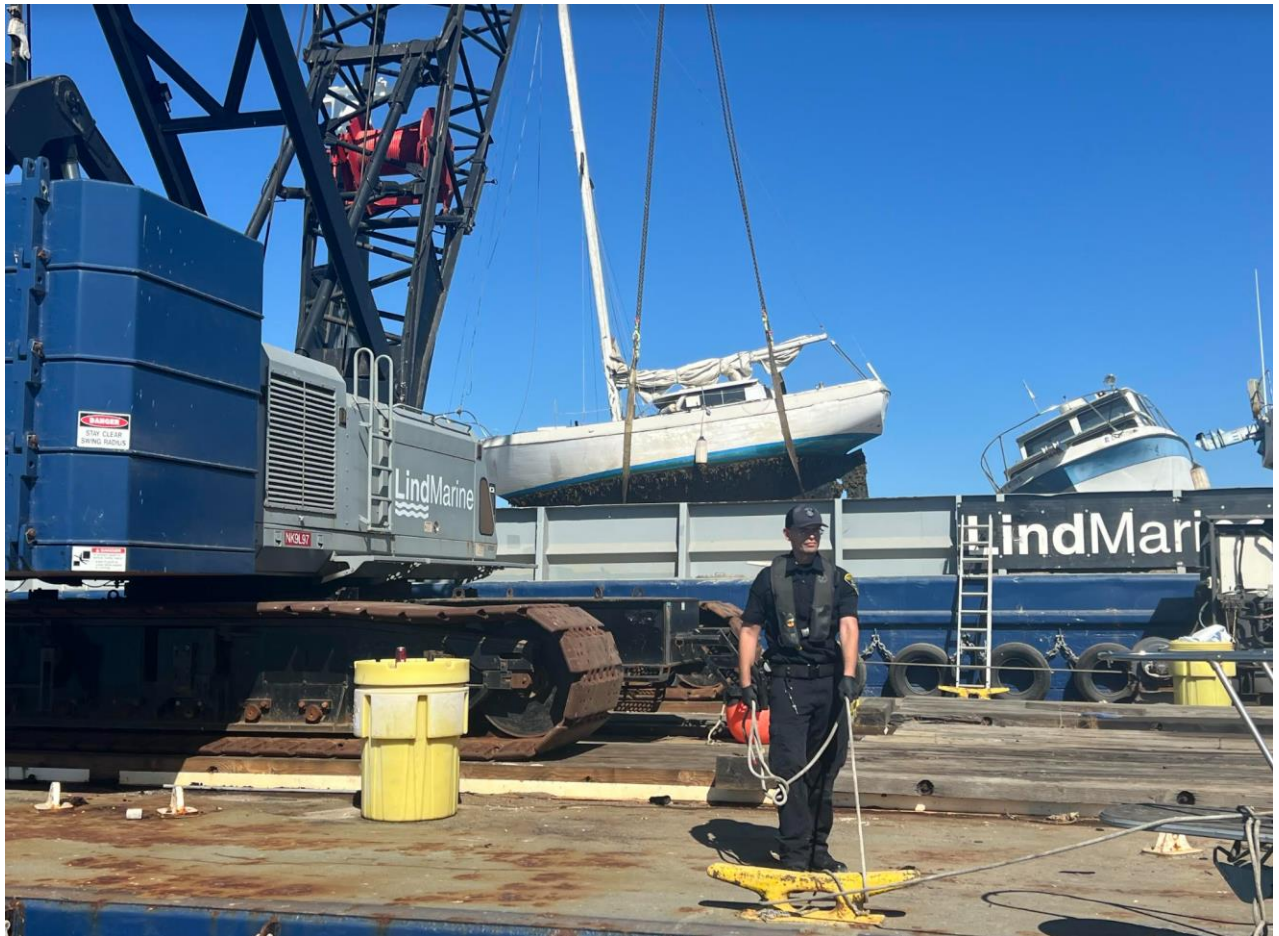

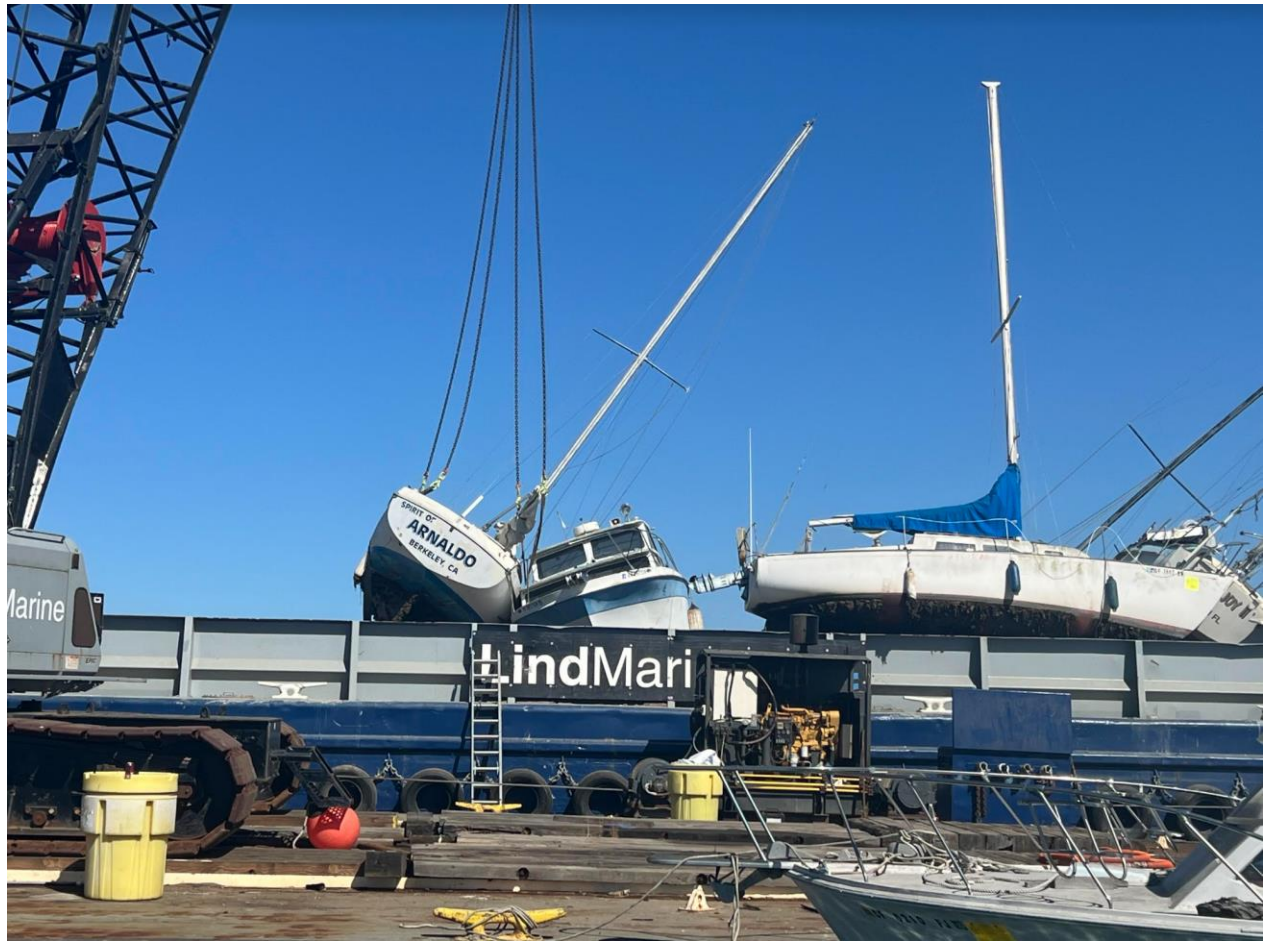

**July 1, 2024**

**Today the Oakland Police Department Marine Patrol Unit, under the direction of Port Security Officer Kaleo Albino, removed 17 derelict and abandoned vessels (ADV) from the Oakland Marinas. These boats were loaded onto a barge by Lind Marine and will be taken to the Lind shipyard on Mare Island for scrapping and disposal. This effectively prevents any of these vessels from becoming illegal anchor-outs on the estuary. Funding was provided by a SAVE grant from the California Division of Boating and Waterways.**
